19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

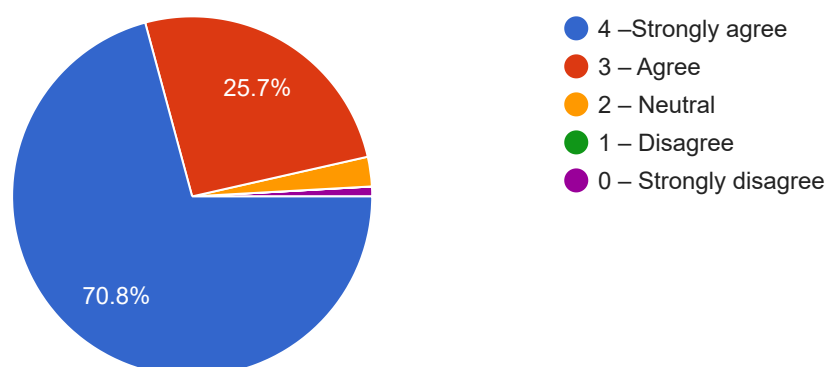

113 responses

20. The overall quality of teaching-learning process in your institute is very good.

113 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

64 responses

Good

Very good

Yes its a noble institution

All Good

All things in our college is great

1. More time for practical and soft skills.
2. Reduction of pressure of syllabus orientated on professors and students.

The teaching process is best

All good

Very good

Very Good

No need

Very good institute

Best

Teaching is overall Outstanding.
Teacher teaching style is appreciating.
My only suggestion is that our teachers teach in very much speed so little bit understanding is difficult.

I have nothing to say

Good college

No comments ☺

Classes must be conducted by blackboard instead of projector slide showing . Regularly classes must be conducted on holidays online mode. Next revision of the previous class chapters just for 5 to 10 minutes in the proceeding classes .

1st we need 24x7 open library
2nd of all we need gym in campus to improve overall physical health
3rd we need Study tours to various Pharma companies to improve practical knowledge

Teacher's should be student friendly

Complete the Syllabus,
Campus Interview,
Exposure

Ipt is a brand

Very good teaching conditions.

So many meetings organized in our institute. Please execute the all of them. But be a proud student to be an IPTian. Thank you.

Ac facility must be included in the classroom.

Our Institute is Best.

It's all okay.

Nothing

Overall Ok

Everything is perfect, teaching is satisfactory

Teaching must be in english,

Robust Research activities should be done

Good not best

Very well

No suggestions

Some questions must be given regularly for practice after completion of chapters and gpat or other competitive exam oriented questions must be given so that we can also get prepared for other competitive exams simultaneously

If institute honourable faculty Members will give Extra coaching which that's helps students to Crack Competative exam such as GPAT,NIPER,CAT etc.

I've some request to library... I think It would be better if our college library given us books more than 5 at least 7 & the time period for renewing the books will be 30 days (1 month)

instead of 15 days...🙏🙏...

Complete the syllabus before final exams atleast 80-90 %

Very good no suggestion from my side

Everything going excellent way.

Besides this some facilities need like-

- 1.Faculty encouragements program by rewarding faculties .
- 2.AC class rooms.
- 2.Expansion of gym.

1. Some topics need to be explained elaborately.
2. Choice of book that are provided by Library should be checked thoroughly.
3. Class notes should be provided by the teachers as soon as possible.

I preferly suggest to all my respected teachers to regularly evaluate the students as we all know that we are not perfect so that's why we are here in front of you.

Second thing which I have faced in my institution that during project or practice school we have been assigned with respective experiments ,but some of the lab assistants are not so much cooperative and they generally used to treat like they are the professional of departments this things hamper many relationship which is not good at all.

Last thing which is important that is about placement cell of our institution which need to be more improved for which students should be well placed in different multinational companies but only less no of students have been got campus in institution due to few no of campus.

And finally I am grateful to have such a excellent Institute which had shown me various paths and I generally suggest that it's a great Institute with knowledgious faculty with higher designation from whom we had learned much more things which will be helpful throughout the life..

Everything will be good

Very good teaching staff and it's a best college

Institute of pharmacy and technology is a best college and student teacher interaction are good all teachers are very good.

No

Good

All goods

Teaching methods should be interactive.

Addition of funniest things to attract students.

Continuous friendly contact of mentors with students.

It will help us in exam

Arrangement of Microphone with speakers in big classrooms.
Materials should be provided after every classes.

We need microphone classes other than that nothing else.

Use of solar panels because of power cuts.
Study tour/picnic/site visits.
Improved internet so that it can handle many devices at a time.
Seminars on career in pharmacy.

Well

Syllabus is vast but the completion time is less which is causing difficulty to study

Teacher illustrate the concept through example and application

1.24*7 Library facilities
2.gym facilities
3.study tour to various pharmaceutical industries

Better

1. As the teacher has ability to judge the students, who is better/good/Average. The institute should judge the teachers that they actually able to teach properly or not. If a teacher has fear of loosing jobs. Then definitely He will teach well and a good bonding will be created between them.
2. The teachers are should be friendly with us so that we can share our problems without hesitation, which is not possible till now in our institute.
3. All the teachers of our college must be correlate professionally as well as personally. So that they can understand the strength and weakness of every student.

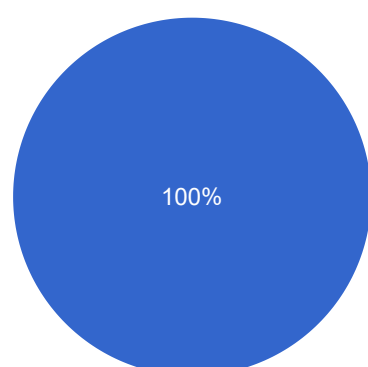

Excellent
